

# Interested in becoming PMP® Certified?

## Overview

This Project Management Professionals (PMP®) course prepares PMP® aspirants for success in achieving the PMP® 2021 Certification (via examination).

The course is based on the PMBOK® Guide - Sixth Edition, published by the Project Management Institute (PMI) which is the current set of standards upon which the PMP certification is based. The Agile Practice Guide, also published by PMI, is a companion text that focuses on the Agile concepts relevant to project management. The new PMP exam was launched January 2, 2021 and reflects the "A Guide to Project Management Body of Knowledge (PMBOK® Guide) - Sixth Edition and Agile Practice Guide".

Designed for Project Managers and other Project Leaders (Project Coordinators, Team Leaders, Project Engineers, etc), with at least 3 years' experience, to prepare for the Project Management Professional (PMP)® examination. It provides the 35 hours of specific project management training required to qualify for the credential.

## Learning Objectives

PMP® course students will gain knowledge and skills to:

- align project management experiences with the Gold Standard in Project Management – The PMBOK® Guide, to improve their ability to manage better all situations in their projects for successful outcomes
- apply best recommended global practices in predictive, agile and hybrid project management methodologies and look at tailoring options within their organisation.
- demonstrate sufficient knowledge and experience to appropriately apply a methodology to projects that have reasonably well-defined requirements and deliverables
- be Professionally and Socially Responsible as a Project Manager
- set expectations of the formal exam
- identify the process for renewing certification status
