PRINCE2 Agile® Certification

Overview

PRINCE2 Agile® is a solution combining the flexibility/responsiveness of Agile with the defined framework of PRINCE2®. The PRINCE2 Agile® framework covers a wide range of Agile concepts, including Scrum, Kanban and Lean Startup.

Course Outcomes

The PRINCE2 Agile® course is a professional training and certification scheme to support those forward-thinking organisations and individuals already benefitting from PRINCE2®.

Upon course completion, participants will be able to:

- Understand how to tailor the integrated set of PRINCE2® principles, themes and processes to an Agile project
- Understand how to produce the PRINCE2® management products in an Agile project
- Be able to map the common Agile roles to the PRINCE2® project management team structure
- Understand how to incorporate the fundamental Agile behaviours, concepts and techniques into PRINCE2®
- Gain PRINCE2 Agile® accreditation

Benefits

Benefits to the Individual

- A broad understanding of all of the key Agile concepts and how these blend seamlessly into the PRINCE2® methodology
- Flexibility to work with both ever-evolving solutions and those that are clearly defined in detail
- Career development through achievement of an internationally recognised qualification

Benefits to the Organisation

- Agile methods allow organisations to realise the benefits of projects and potentially an earlier return on investment while products are being developed and improved
- Improved communication through the use of common terminology across PRINCE2® and Agile disciplines
- Develop a clear definition of how Agile can govern a project's delivery, whilst PRINCE2® governs projects as a whole

* Exams are included in price and duration of courses.
